# Wellbeing with a wound diary

# Personal details My details My healthcare team Name ..... GP $\square$ Practice Nurse Community Nurse Other Address Phone ..... E-mail ..... Phone ..... E-mail ..... Welcome to your Wellbeing with a wound diary GP $\square$ Community Nurse Practice Nurse Other 🗌 Your wellbeing is central to the overall management of your wound and finding the optimal wound treatment plan for you and your lifestyle. Name ..... Address How do I use this diary? • You should make entries into the diary as often as you feel necessary. Phone ..... • The diary is designed to capture your insights as to how your wound and the way it is being managed has affected your wellbeing over time. • When completing the diary please capture as much information as possible, not only about the wound and dressings themselves, but also about how you feel and what you have to modify because of your wound/treatment. GP 🗌 Practice Nurse Community Nurse Other Why have I been given this diary? Name • Everyone is affected differently by their wounds so it is important to discuss Address each of these with your healthcare professional so the impact imposed by your wound and its treatment can be reduced.

• The information from the diary will be used by healthcare professionals to assess various treatment options to help tailor your treatment in order

to minimise their impact on your lifestyle.

# **ALLEVYN° LIFE Foam Dressing product information**

If your healthcare professional has decided to use ALLEVYN LIFE to manage your wound, the following information will help you understand why they have made this decision and help you to get the most from the dressing.

| Designed for wellbeing | A dressing designed especially for wounds and people   |
|------------------------|--|
| Security               | Unique ergonomical shape designed to fit the contours of the body so it conforms securely, and allows the patient to shower <sup>1-3</sup> |
| Confidence             | Excellent absorbency and fluid-locking ensures minimal leakage and odour $^{1.4.5}$  |
| Discretion             | Special masking layer reduces visible strikethrough <sup>1</sup>   |
| Simplicity             | Design offers an indication of when a dressing change is needed without unnecessary removal <sup>6</sup>                                   |
| Protection             | Extra cushioning spreads pressure and protects from knocks and bumps <sup>7</sup>  |
| Practicality           | Easy to apply <sup>1,2,6</sup> and minimises pain and discomfort on removal <sup>8,9</sup>   |

# Getting the most out of ALLEVYN LIFE

ALLEVYN LIFE Foam Dressings mask excess fluid from your wound<sup>1</sup> and also help to keep potential leaks or odours locked away. 1,4,5

Here's a helpful diagram to show you when to get your dressing changed:

#### **INDICATOR AT 0%**

Everything's good, don't worry about changing your dressing at this point. The dressing can remain in place, with the exudate masked from view.

### **INDICATOR 50% FULL**

There's still no need to change your dressing but consider arranging an appointment with your medical professional, as appointment times and availability may vary.

## **INDICATOR 75% FULL**

When the change indicator is this full, it is time to change your dressing. Contact your medical professional to arrange a dressing change.
